MEDIA ADVISORY  

Edison will Showcase Projects from Green Energy and Technology Academy  

What:  Edison High School hosts Green Energy and Technology Academy Spring Expo  

When:  Friday, May 25, 2018  
9 a.m.-12:15 p.m.  

Where:  Edison High School gym  
540 E. California Ave. (93706)  

Students in Edison High School’s Green Energy and Technology Academy will share their research and findings from the past academic year. Student projects include a working solar paneled cell phone charger, a battery-powered electric car, and a fully functional wind turbine.  

Green Academy students explore the different types of energy with an emphasis on green and renewable energy sources. The Green Academy, which partners with PG&E, is a California Partnership Lighthouse Academy.  

“Edison’s Green Academy is a great example of hands-on, relevant learning that is preparing our students for 21st century careers,” said Superintendent Bob Nelson.
