MEDIA ADVISORY

Patiño School of Entrepreneurship Adds Ninth Grade, Will Host Parent Information Night

What: Patiño School of Entrepreneurship will host an information night for students and parents, including the addition of ninth grade for the coming school year

When: Wednesday, May 9, 2018
5:30-6:30 p.m.

Where: Patiño School of Entrepreneurship
2000 E. Cambridge Ave. (93703)

Patiño School of Entrepreneurship will host an information night for parents that will include a short presentation from Principal Blair Eliason Sagardia followed by student-led tours of the district’s newest high school. The information night is for current eighth and ninth grade students and their families. The district recently announced that it will add ninth grade for the coming academic year. Since opening in 2015, the school had offered tenth through 12th grades. The change will allow students to transition immediately to Patiño from middle school and spend all four years of high school at the same campus.

Patiño is an applied entrepreneurship high school, designed to equip young entrepreneurs to thrive. The curriculum centers on integrated project-based learning that fosters real world skills - critical thinking, problem solving, and collaboration. Like a traditional high school, Patiño offers advanced courses, access to extracurricular activities, and special education support. Graduates can pursue college, career, or both. However, at Patiño students direct their education based on their passion. The school provides an open, innovative, and fun atmosphere, flexible
schedule, and inspiring instructors. By the time students graduate, they will have developed, pitched, and launched their own companies.

Patiño’s first class of seniors will graduate this year at 7 p.m. on June 6 at the Tower Theatre.

“I would encourage parents and students interested in a cutting-edge high school that encourages entrepreneurship, innovation and collaboration with other students and local businesses to learn more about Patiño School of Entrepreneurship at information night,” said Superintendent Bob Nelson.
