MEDIA ADVISORY

Computech Hosts Civil War Day

What: Eighth-graders learn more about the Civil War during Civil War Day

When: Friday, May 11, 2018
8 am.-2:30 p.m.

Where: Computech Middle School
555 E. Belgravia Ave. (93706)

Computech Middle School’s annual Civil War Day will feature a variety of live demonstrations for eighth-graders to reinforce classroom lessons on the Civil War. Actors bring the time period to life through demonstrations on blacksmithing, weaving, preparing food and other daily tasks of the 1860s. Students rotate through the sessions throughout the day and take notes during the demonstrations.

“Civil War Day gives eighth-graders at Computech an up-close look at everyday life during this critical time period in our country’s history, and helps them better understand the causes and outcomes of the Civil War,” said Superintendent Bob Nelson.
