Sunnyside Regional String Day is an initiative that brings all elementary and middle school orchestra students together to learn from each other and perform. The event will close with all 250 students playing together and demonstrating their skills. This is the third year that the region has held String Day but this will be the first time that all orchestra programs will participate, uniting as a region to increase collaboration and encourage greater participation in music programs.

“This concert is a great example of collaboration among the music programs in the Sunnyside region, providing a fun way for students to work together and learn from each other to improve their skills. String Day is a unique opportunity to hear all these wonderful musicians in one combined orchestra,” said Superintendent Bob Nelson.
