MEDIA RELEASE

Superintendent Provides Update to Staff and Parents on School Closures and Educational Learning Resources

This afternoon, Superintendent Nelson released a video message providing students, parents and staff with an update regarding COVID-19 school closures, and the recent shelter in place order from the city of Fresno.

The video provides information regarding the district’s new streamlined meal distribution and optional online educational resources to exercise the brain and help keep students engaged during this unprecedented time period.

In addition to providing updates and resources for families through fresonunified.org, Fresno Unified continues to operate its COVID-19 call center to field questions from district staff and families at 457-3395.
