MEDIA RELEASE

District will Provide Meals during Spring Break

Fresno Unified will continue serving meals to students during the spring break, April 6-9. Meals will not be provided on Good Friday, April 10, which is a district holiday. The district will continue the regular schedule of providing grab-and-go meals from 9-11 a.m. at 19 sites. On Good Friday, generous community partners have stepped forward to fill the gap and provide food. More details about their distribution will be provided at a later date.

The district is now providing more than 40,000 meals a day to students and families following the closing of schools on March 13.

“I am pleased that as a district we have decided to extend our meal distribution through most of the spring break, knowing that our students and families desperately need this support. During this unprecedented time, our families are facing increased unemployment and anxiety. I hope that providing meals can ease their worries,” said Superintendent Bob Nelson.
