Ewing Elementary School
4873 E. Olive Ave. (93727)

Availability: Video of distribution, interviews with site leaders and Information Technology

Fresno Unified will continue distributing devices such as tablets and laptops for elementary students this week. Schools are carefully coordinating distribution following social distancing protocols. The district is committed to providing a laptop to every student in fourth through 12th grade and a tablet to every student in pre-k through third grade. Third-graders will also get a keyboard with their tablet.

Device distribution will continue as long as necessary to ensure students have access to the technology they require. Ewing Elementary and Addams Elementary schools are also meal distribution sites and Addams’ new health clinic is open to provide services to ages birth through 19. While the COVID-19 pandemic made the planned March 15 grand opening impossible, the clinic is open to support the pediatric community during school closures.
Meal distribution continues on a grab-and-go basis from 9-11 a.m. at 23 sites. For a complete list or more information, parents and the community can visit fresnounified.org or call the district’s COVID-19 call center at 457-3395.
