MEDIA RELEASE

Superintendent Provides Update to Staff and Parents Regarding Week One of School Closures

In an effort to reduce the spread of COVID-19, Fresno Unified made the extremely difficult decision this past Friday to close all schools for students beginning Monday, March 16 through April 13. Tonight the district provided an update to staff and parents regarding this coming week’s school closures.

Superintendent Nelson and key district leaders will work through the weekend, focused on ensuring operations run as smoothly as possible in this first week of school closures. We expect that superintendent will be available early next week to provide media updates.

Parent and staff updates can be found on the district website at Fresnounified.org and our social media platforms.
