For the record, comments/questions were made with concerns to some of the proposed Board Bylaws, stating concerns that the changes directs the transition of power and final authority from the Superintendent to the Board, why would we suggest taking money away from needed areas of the district, moving board meeting start time to be able to have discussions without the fear of running late into the evening, concerns with students and staff staying too late, the board should not feel required to wait for the government or CSBA to tell us to make changes, we may want to consider taking some of these off the table because of the districts recent change in leadership, we don’t want a new Superintendent to feel we don’t trust him/her, the organization of the board should remain an election process, there should be a level of trust and camaraderie, final approval should not be with the Board President because there is a system of checks and balance with the Superintendent’s Evaluation, the board should have no limits or boundaries to do good for all students, the rotation of the organization is a good idea because it lessens tensions and builds relationships, maybe moving closed session to another day other than a board day would be good, every board member should have an opportunity to place an item on the agenda as long as it is within the scope of the Board parameters, proposed changes are an attempt to achieve a balance to the existing Bylaws, we are the policy body and these are policies, it is the role of the board to establish and adopt Bylaws, we may want to get a second legal opinion if anyone has any questions or concerns. District Legal Counsel, Mary Beth de Goede was available to answer questions and provide clarification. No action is required on this item.
