Fresno Unified’s Parent University invites families to attend a Family Goal Kickoff to learn more about resources that will help prepare students for the new school year. Resources include backpacks with school supplies, haircuts, preschool registration, technology support information, social emotional support services and more. Resources will be available for families and students on a first come, first served basis. In addition, families and their students will have an opportunity to watch a movie together.

“We hope that families take advantage of this one-stop opportunity to connect with support for a successful school year, and to enjoy a movie together,” said Superintendent Bob Nelson.
