MEDIA RELEASE

Demolition Party will Highlight Planned Career Pathways Building at Edison

What: Edison High School will host a “demo party” for planned CTE classroom building

When: Thursday, May 25, 2023
Noon

Where: Edison High School
540 E. California Ave. (93706)

Edison High School will host a “demo party” to clear space for a new 31,000-square-foot, two-story building for classrooms and labs. When the building is completed in 2024, Edison will be able to expand its various career technology education (CTE) pathways. The CTE pathways include:

- Biomedicine and Kinesiology
- Engineering Design and Development
- Green Energy and Technology Academy
- Computer Science
- Teacher Academy
The building will include a robotics workshop, sports medicine lab, state-of-the-art technology labs and a Collaborative Career Center serving all Edison students.

Speakers will include Superintendent Bob Nelson, Principal Joey Munoz, members of the board of education, CTE coordinator Troy O’Dell and CTE pathway students.

“Right now, we don’t have the space to accommodate all the students who want to participate in Edison’s wide array of career pathway programs. This building will also give us the space we need for industry-standard equipment so that students are up to date on the skills they are learning,” said Superintendent Bob Nelson.
